Galaxy XCover7

## Introduction

# Your ultimate rugged work companion

Those who construct our homes, patrol our streets, and make crucial deliveries need business devices that serve as unwavering companions in tough working conditions. These business devices must go beyond conventional expectations. They need to be easy to use while tough enough to handle whatever the job throws at them.

Introducing the Rugged range of devices, now with new Galaxy XCover7 Pro and Galaxy Tab Active5 Pro models, designed to thrive in harsh work environments. They not only provide the assurance and reliability that frontline workers have come to expect from Samsung but also offer a wide range of useful and new smart features. They seamlessly blend hard-wearing innovation with the familiarity of a consumer device—sleek, lightweight and equipped with a brighter, more durable display—they offer the best of both worlds.

## Rugged Range

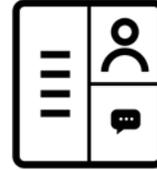

### Intuitive productivity

- Programmable hot key (Barcode scanning, mPOS)
- Touch sensitivity, even for gloved hands
- Powerful processors
- Intelligent Features<sup>1</sup>

### Protected against the unpredictable

- MIL-STD-810H (high/low temp, shock, vibrations)
- Water and dust resistance anitiselP68<sup>2</sup>
- Knox Security across hardware and software
- Biometric authentication
- Tested for resistance to sanitisers<sup>3</sup>

### Flexibility to keep work flowing

- Replaceable battery,<sup>4</sup> No Battery Mode<sup>5</sup>
- Push-to-talk through Microsoft Teams
- Fast network support PC like desktop experience with DeX<sup>6</sup> anywhere
- Link to Windows
- Range of accessories
- 3-year warranty and enhanced support including next business day doorstep exchange<sup>7</sup>

1. Available on Galaxy XCover7 Pro and Tab Active5 Pro from launch. Available on XCover7 and Tab Active as part of One UI 7 upgrade. Samsung account required. 2. Submersion in up to 1.5m of freshwater for up to 30min (no advised for beach or pool use). Rinse residue/dry after wet. Not advised for beach or pool use. 3. Internally tested with Liquid Ethanol, Ethanol Cotton, Clorox (Chlorine bleach), Medilox HClO. 4. In the case of extra replaceable batteries, only Samsung-certified products are compatible for use. 5. No Battery Mode available on Tab Active devices only. 6. Wireless DeX available only on Tab Active5. On device, wired and wireless DeX available only on Tab Active5 Pro. Wired and wireless DeX available on both XCover7 and XCover7 Pro. 7. Doorstep Exchange with Samsung gold stock. Covers manufacturing defects only. T&C apply.

## Productivity

# Maximised productivity

Jobs out in the field are demanding and intensive, requiring multi-tasking, agility and constant attention. Samsung Rugged devices help empower frontline workers with versatility, shortcuts and smart features for quick, intuitive responses in any environment.

## Your tasks your way

Programmable hot key allows IT to set up shortcuts for frequently used apps, minimising interruptions to employees' workflow. Samsung Rugged devices are your go-to for mobile point of sale.<sup>1</sup> Now you can interact with customers directly, and take payment,<sup>2</sup> without being tied to a checkout.

## Breakthrough efficiency with a beep

Scan deliveries in a flash with Knox Capture<sup>3</sup>—just hit the button or use the keyboard wedge. Using it to scan parcels at the doorstep can vastly speed up the whole process. Or go hands-on with Koamta's SmartSled barcode scanner accessory. The pistol grip makes it ergonomic and rugged, perfect for heavy-duty warehouse environments.

Mounted mPOS  
payments

Barcode  
scanner

Mobile  
payments

1. Additional software and wireless internet connection required to take payments directly on a device. 2. MPOS payment possible with NFC-enabled device. 3. Knox Capture is a paid solution and sold separately.

Circle to Search with Google

# Information at your command

## Unlock instant business insights and hands-free productivity

Instantly find the answers you need, anywhere you are, thanks to Circle to Search with Google<sup>1,2</sup>—simply circle any object, number, or text to unlock a world of information. Then, let AI Select<sup>2</sup> transform insights into action, automatically creating calendar events, searching maps, and more from selected information on your screen. And when your hands are full, the Read Aloud<sup>2</sup> feature keeps you informed, converting online text into audio, so you can stay focused on the task at hand.

1. Accessible on any app that does not block screenshots. Requires internet connection. Results may vary depending on visual or audio matches. Accuracy of results is not guaranteed. 2. Available on XCover7 Pro and Tab Active5 Pro from launch. Available on XCover7 and Tab Active as part of One UI 7 upgrade. Samsung Account Required.

## Durability

Drop Test

Vibration

Rain

Dust

Temperature

Humidity

# Protected against the unpredictable

The devices used out in the field, in our factories and on our worksites need to be tough enough to handle anything that their owners can. From bumps and scrapes, to dust and splashes, workers rely on rugged devices that can keep them connected and productive, no matter how harsh the environment.

## Fully rugged, extremely capable

Rest easy with the Samsung Rugged Range. They're ready for any challenge, even at altitude, or high and low temperature environments. Tested to MIL-STD 810H, they can take up to a 1.5-metre drop with the cover on,<sup>1</sup> meaning they won't break in loading bays or in the field. And with Corning® Gorilla® Glass, they're sanitiser-safe<sup>2</sup>—perfect for healthcare heroes.

## Thrives in extremes

With IP68 water and dust resistance,<sup>3</sup> Samsung Galaxy Rugged devices are built to withstand tough weather. They thrive in dusty conditions, from factory floors to building sites. Even in a downpour in the field, your device stays fully protected.

1. Drop test results meet MIL-STD 810H standard and vary depending on particular Rugged device. Test scope: Altitude, Humidity, Immersion, Salt Fog, Dust, Vibration, Drop, and more. Tab Active5 Pro can take 1.5M with case on. 2. Internally tested with Liquid Ethanol, Ethanol Cotton, Clorox (Chlorine bleach), Medilox HClO. 3. Resistant to dust and up to 1.5 metres of fresh water for up to 30 minutes (IP68). Rinse residue/dry after wet. Not advised for beach or pool use.

Durability

# Flexibility at your fingertips

**A screen that responds, even in wet conditions or with a gloved hand.**

When you've got to keep those gloves on for work, Samsung Rugged devices have your back. Whether you're performing in sterile spaces, working in a factory, in the field or part of a construction crew, the screen sensitivity captures commands to keep your tasks on track—even in the rain<sup>1</sup> and with wet gloves.<sup>2</sup>

# Just as tough on security

**Only you have the key to unlocking your device.**

Your Rugged device is your personal fortress, secured by Samsung Knox and unlocked only by you. Enjoy quick and secure access with the fingerprint scanner and hands-free facial recognition.<sup>3</sup> Plus, Knox Vault provides a tamper-resistant, secure subsystem that isolates your most sensitive data for ultimate protection. And with seamless OS and security updates, your device stays protected against evolving threats.

1. The device can be used in wet environments, but not fully submerged under water. Underwater touch is not available. 2. Touch sensitivity increases responsiveness for leather gloves thinner than 2mm or less in thickness, based on internal laboratory test results. Touch-responsiveness may vary depending on the material and thickness of gloves as well as other environmental conditions. 3. Also protects Biometric data (fingerprint, facial) and Blockchain keystore, etc.

# 5G

## Flexibility to keep work flowing

Frontline workers are often working hands on, meaning it's not always easy to access vital information or communicate with colleagues. The Samsung Rugged Range is designed with these needs in mind—flexible enough to keep up with the demands of the workplace.

### Work without limits

Enhanced performance when you need it most. All Samsung Rugged Range devices include 5G network connectivity<sup>1</sup> plus fast and reliable Wi-Fi, so you can stay connected in all environments. Whatever the emergency, you can be sure you're never alone.

1. 5G requires optimal 5G connection and actual speed may vary depending on market, carrier, and user environment.

Simplicity & Connectivity

# Work here, there, everywhere

**Enjoy a PC-like experience  
wherever you are.**

Samsung DeX elevates most Rugged devices to a whole new level.<sup>1</sup> Connect to a monitor with just one cable<sup>2</sup> or go wireless for a PC-like experience, seamlessly transitioning from outdoor to office tasks. Samsung DeX is optimised for top productivity apps like Microsoft 365 and VMware,<sup>3</sup> so you can work on multiple apps at once using full desktop versions.

And with Link to Windows,<sup>4</sup> run up to five favourite phone apps on your PC simultaneously. Move tasks smoothly from your mobile to your Windows PC—drag, drop, copy and paste between your Galaxy Rugged devices and Windows PCs. That's effortless connectivity, whether you're on the go or at the desk.

1. Wireless DeX available only on Tab Active5. On device, wired and wireless DeX available only on Tab Active5 Pro. Wired and wireless DeX available on both XCover7 and XCover7 Pro. 2. USB-C to HDMI cable and accessories sold separately. 3. Additional licenses may be required. 4. Microsoft account required.

# Tap into teamwork

## Vital communications at your fingertips.

Samsung has teamed up with Microsoft, combining leading hardware and software to unlock new ways for workers to connect in a wide variety of environments. This combination is a game-changer for busy, travelling teams.<sup>1</sup>

Plus, with programmable keys, you can send private location data or alerts—keeping you in constant contact using walkie-talkie capability throughout your day—even if the network is down.<sup>2</sup>

1. Additional licenses may be required. 2. Requires Samsung D2D Service

Simplicity & Connectivity

# Always ready for action

## Fast, flexible charging and replaceable battery to power you through your day.

Eliminate battery worries with Samsung's Galaxy Rugged devices. The powerful replaceable battery<sup>1</sup> keeps you working longer, even in remote locations. Utilise No Battery Mode<sup>2</sup> for continuous operation when a power source is available. Plus, enjoy convenient and easy charging via the POGO port.<sup>3</sup> Double shifts? No problem.

# Gear up for tough tasks

## Accessories as tough as your device.

We've designed our Rugged accessories to make tough jobs easier. The Samsung Galaxy Rugged Range is fully supported with a complete ecosystem of equally tough accessories, including cases, docks, mounts, chargers, and keyboards<sup>2</sup>—specifically designed to maximise productivity in the field or in the office—and provide a smooth transition between the two. Plus, the S Pen<sup>4</sup> is IP68<sup>5</sup> resistant and functions even in wet environments, maintaining touch sensitivity for seamless input in any condition.

1 Additional battery sold separately. In the case of extra replaceable batteries, only Samsung-certified products are compatible for use. 2. Need to turn on "No Battery Mode" and use a dedicated USB Type C power source accessory (9V/2.3A ↑, PD2.0↑). Cradle and power source accessory sold separately. No Battery Mode limits device's CPU/GPU performance and reduces maximum volume, and display brightness, when enabled. No Battery Mode available on Tab Active devices only. 2. Accessories sold separately. 3. POGO charging dock sold separately. 4. S Pen available on Tab Active devices only. 5. Resistant to dust and up to 1.5 metres of fresh water for up to 30 minutes (IP68). Rinse residue/dry after wet. Not advised for beach or pool use.

# Enhanced support for busy workers

**It's like your own IT team, available 24/7.**

Handle all your Samsung Rugged device needs effortlessly, even if you don't have a dedicated IT team. With Enterprise Edition, you can enjoy a 3-year warranty for a lower total cost of ownership and added peace of mind. Plus, you get next business-day doorstep replacement.<sup>1</sup> Keep devices safeguarded from mobile threats with up to 8 years of Security and Maintenance releases.<sup>2</sup> Plus, ensure consistency across your device fleet with the Extended Product Lifecycle.<sup>3</sup>

And for those keen to explore Knox Suite features, Enterprise Edition offers a Quick Start build service. It's your all-in-one solution for seamless device management.

1. Doorstep Exchange with Samsung gold stock. Covers manufacturing defects only. T&C apply. 2. Up to 8 years, with monthly or quarterly updates, depending on device. 3. From product launch, subject to change without notice. Devices will remain on sale for a defined period of time after first global market release. The defined period will differ according to each specific device.

# Galaxy XCover7 Pro

The tough, stylish,  
connected work phone.

# Connect and conquer

**Keep in touch with both teams and devices with reliable connectivity.**

Stay connected, no matter where you roam, with the Galaxy XCover7 Pro. Fast and reliable 5G<sup>1</sup> connectivity means that accessing data in the field while staying in touch with teams back at base is easy. The Galaxy XCover7 Pro boasts built-in Wi-Fi 6E, ensuring you can work, collaborate and share documents at lightning speed. With Samsung DeX,<sup>2</sup> your device can power a PC-like experience, allowing you to work on large monitors and with full keyboards. It's like having the power of a desktop right in your hand.

1. 5G requires optimal 5G connection and actual speed may vary depending on market, carrier, and user environment. 2. Wireless DeX available only on Tab Active5. On device, wired and wireless DeX available only on Tab Active5 Pro. Wired and wireless DeX available on both XCover7 and XCover7 Pro.

## Product Features

# Strong performance. Unstoppable power.

## Build for performance, engineered for endurance.

Conquer any challenge with the rugged Galaxy XCover7 Pro. Built for the toughest jobs, it delivers unstoppable performance with the latest Qualcomm Snapdragon 7s Gen 3 processor. Experience lightning-fast speeds and seamless multitasking, enhanced by Intelligent Features<sup>1</sup> that streamline your workflow. The fast-charging 4,350mAh battery<sup>2</sup> keeps you powered for even longer, even on the job site. And for smarter multitasking, enjoy intuitive search and text-to-speech functionality.

Eliminate unwanted noise and feedback loops with anti-howl technology and ensure crystal-clear communication in every situation with louder speakers.

1. Available on XCover7 Pro and Tab Active5 Pro from launch. Available on XCover7 and Tab Active as part of One UI 7 upgrade. Samsung account required. 2. Typical value tested under third-party laboratory condition. Typical value is the estimated average value considering the deviation in battery capacity among the battery samples tested under IEC 61960 standard. Actual battery life may vary depending on network environment, usage patterns and other factors.

## Product Features

# Extremely tough, effortlessly productive

## Take on even the most intense work environment with confidence.

Get ready for action with the phone that's always up for a challenge. The Galaxy XCover7 Pro is built to MIL-STD-810H<sup>1</sup> standards, meaning it can handle bumps, scrapes, dust and dirt—and even drops onto steel from as high as 1.5m. Corning® Gorilla® Victus®+ raises your game with enhanced scratch resistance and a 25% boost in drop protection<sup>2</sup> compared to its predecessors. You can also stop worrying about rain, dust and other workplace messes, because with IP68 water and dust resistance,<sup>3</sup> it'll all slide right off your device. Plus, it copes with being sanitised regularly<sup>4</sup> to keep it free from germs. So, you can work anywhere, confident your device is up to the task.

1. Drop test results are to MIL-STD-810H test scope: Altitude, Humidity, Immersion, Salt Fog, Dust, Vibration, Drop, and more. 2. Compared to Gorilla Glass 6 used in Galaxy XCover5. Twice scratch resistance of Gorilla Glass 6 and 25% more drop protection. Test results of a single Gorilla Glass Victus LCD unit conducted separately by Corning (results on XCover6 Pro may be different). 3. Resistant to dust and up to 1.5 metres of fresh water for up to 30 minutes (IP68). Rinse residue/dry after wet. Not advised for beach or pool use. Rinse residue/dry after wet. Not advised for beach or pool use. 4. Tested Sanitizer: Liquid Ethanol, Ethanol Cotton, Clorox (Chlorine bleach), Medilox HClO.

# Galaxy Tab Active5 Pro

The tough tablet that  
makes tough jobs easier.

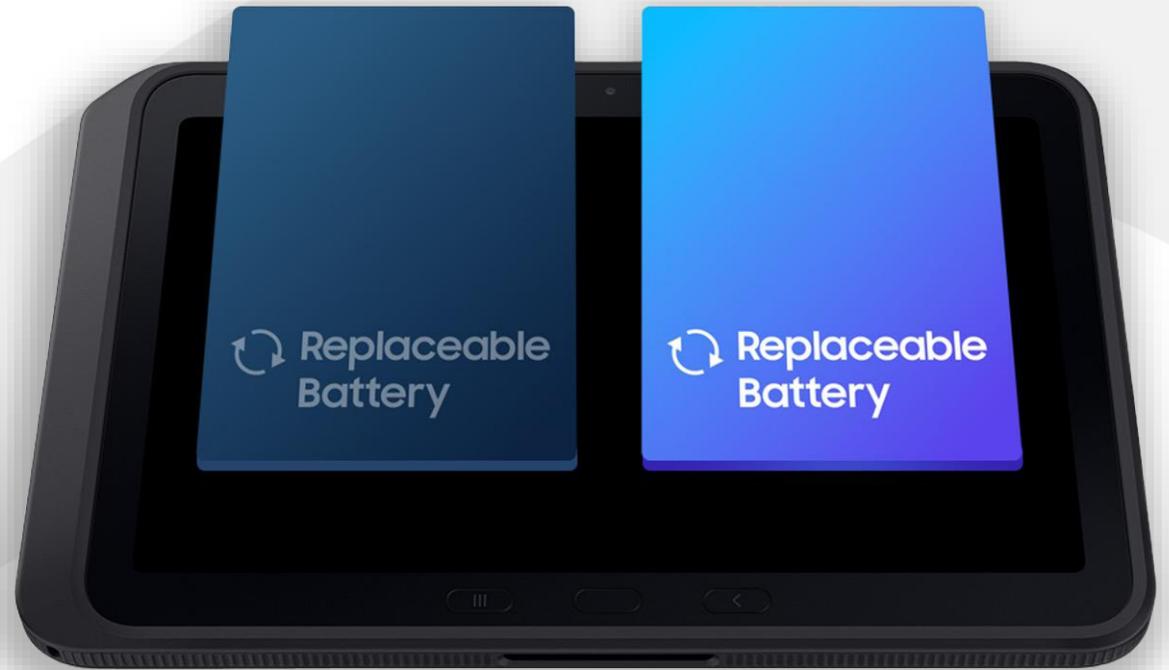

# Take on any conditions

## A tablet that isn't afraid of a bit of hard work

Tackle the toughest environments worry-free with the Galaxy Tab Active5 Pro. With a resilient Corning® Gorilla® Glass Victus+ display, it'll stand up to heavy-duty use. It's also IP68<sup>1</sup> and MIL-STD 810H tested, so splashes, dust and drops up to 1.5m will not be an issue.<sup>2</sup> Plus, the included S Pen is also IP68 compliant, so even wet conditions won't throw it off course.

The swappable 10,100mAh battery<sup>3</sup> has you covered. Dual hot-swap lets you replace the battery without powering down, for uninterrupted productivity. Or charge via USB-C or POGO pins.<sup>4</sup> It can even run without a battery via No Battery Mode.<sup>5</sup>

1. IP68 is based on test conditions for submersion in up to 1.5 meters of freshwater for up to 30 minutes. Not advised for beach or pool use. Water or dust damage not covered by warranty. Rinse residue/dry after wet. Not advised for beach or pool use. 2. Device tested to withstand drops up to 1.5m with protective cover. 3. Additional batteries sold separately. Typical value tested under third-party laboratory condition. Typical value is the estimated average value considering the deviation in battery capacity among the battery samples tested under IEC 61960 standard. Actual battery life may vary depending on network environment, usage patterns and other factors. 4. POGO charging dock sold separately. 5. Need to turn on "No Battery Mode" and use a dedicated USB Type C power source accessory (9V/2.3A ↑, PD2.0↑). Cradle and power source accessory sold separately. No Battery Mode limits device's CPU/GPU performance and reduces maximum volume, and display brightness, when enabled.

**Active  
Key**

# Built for the busy

**A device that proves you don't have to sacrifice usability for toughness.**

Level up your productivity with the push of a button—even if you're wearing thick gloves.<sup>1</sup> Simply press the physical Active Key on the Galaxy Tab Active5 Pro to instantly launch your chosen app. Not only does it make multitasking a breeze, it means you can act fast and respond to emergencies in an instant.

Now, with seamless payments via front tagging NFC, transactions are lightning fast. Administrators can take control and manage the mapping for the Active Key across your entire fleet with Knox Mobile Enrolment.<sup>2</sup> Plus, with Microsoft Teams<sup>3</sup> push-to-talk voice calls, your Galaxy Tab Active5 Pro transforms into a powerful walkie-talkie. And with the enhanced Screen Vision Booster, enjoy crystal-clear visibility, even in sunlight. Take it anywhere, even into bustling environments

1. Touch sensitivity increases responsiveness for leather gloves thinner than 2mm or less in thickness, based on internal laboratory test results. Touch-responsiveness may vary depending on the material and thickness of gloves as well as other environmental conditions. 2. Wi-Fi connection required. 3. Microsoft Teams application and license required

# Pro-level productivity

## Become a productivity powerhouse with an easy-to-transport tablet.

You don't need a big workstation for a PC-like experience – just this powerful, portable tablet. With Wireless DeX,<sup>1</sup> display content on a secondary screen while keeping apps open. And for smarter multitasking on the move, take advantage of the Intelligent Features designed to make life easier. Instantly analyse and extract key insights from on-screen content with Circle to Search with Google<sup>2,3</sup>. AI Select<sup>3</sup> helps you turn insights into action by identifying and interacting with key elements on your screen. And when your hands are full, Read Aloud<sup>3</sup> keeps you up to speed by converting on-screen text to audio as you go.

Give your teams ultimate control for editing, noting, and sketching with the built-in S Pen. And don't worry, it's IP68 rated, so it's just as tough as the tablet itself.

Cut down on hardware: Knox Capture<sup>4</sup> turns your device into a powerful, flexible barcode scanner.

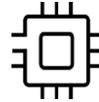

1. Wireless DeX available only on Tab Active5. On device, wired and wireless DeX available only on Tab Active5 Pro. Wired and wireless DeX available on both XCover7 and XCover7 Pro. 2. Accessible on any app that does not block screenshots. Requires internet connection. Results may vary depending on visual or audio matches. Accuracy of results is not guaranteed. 3. Available on XCover7 Pro and Tab Active5 Pro from launch. Available on XCover7 and Tab Active as part of One UI 7 upgrade. Samsung account required. 4. Knox capture is part of Knox Suite. After the one-year subscription, you can extend it by one or more years.

# Galaxy XCover7

The work phone that's all about the view and the do.

# Not just a pretty case

## Designed for comfortable multitasking in any conditions.

Get a better view of your work with a larger, brighter 6.6" display.<sup>1</sup> It's a true game-changer when working in rough conditions, or under harsh direct sunlight.<sup>2</sup> The higher resolution display gives you more space to multitask and read documents. You could use multiple windows to view a map or video while you respond to emails, for example. And when you are multitasking like a pro, you'll find that typing is more accurate, even with gloves on, or in wet conditions.<sup>3</sup> The Galaxy XCover7 is all about simplifying tasks and working comfortably.

1. Compared to XCover5. 2. Tested in Level 3 'Direct Sunlight' 50k-100k lux. 3. The device can be used in wet environments, but not fully submerged under water. Underwater touch is not available. Touch sensitivity increases responsiveness for leather gloves thinner than 2mm or less in thickness, based on internal laboratory test results. Touch-responsiveness may vary depending on the material and thickness of gloves as well as other environmental conditions.

# Makes the rough smooth

The rugged phone that's ready for anything.

The Galaxy XCover7 is like the superhero of rugged phones. It's built to MIL-STD-810H standards,<sup>1</sup> handling everything from bumps and scrapes to dusty environments. It can even survive drops onto steel from an impressive height of 1.5m.

Corning® Gorilla® Glass Victus®+ gives you enhanced scratch resistance and 25% more drop protection compared with previous models.<sup>2</sup> And with IP68 water and dust resistance, you don't need to worry about rain, dusty warehouses or accidental puddle incidents.<sup>3</sup>

Plus, it can handle regular sanitising to ensure a clean work environment.<sup>4</sup> Whether you're in a bustling office or out in the field, rest assured, your Galaxy XCover7 can handle whatever you throw at it.

IP68  
resistance

Drop  
tested

1. MIL-STD-810H test scope: Altitude, Humidity, Immersion, Salt Fog, Dust, Vibration, Drop, and more. 2. Compared to Gorilla Glass 6 used in Galaxy XCover5. Twice scratch resistance of Gorilla Glass 6 and 25% more drop protection. Test results of a single Gorilla Glass Victus LCD unit conducted separately by Corning (results on XCover6 Pro may be different). 3. Resistant to dust and up to 1.5 metres of fresh water for up to 30 minutes (IP68). Rinse residue/dry after wet. Not advised for beach or pool use. 4. Tested Sanitizer: Liquid Ethanol, Ethanol Cotton, Clorox(Chlorine bleach), Medlinox HClO.

## Product Features

# Built for security, customised for productivity

## The tough, secure, easy-to-manage phone.

Secure your workspace with the built-in defence-grade security of Samsung Knox for your Galaxy XCover7. It's your shield against malware and unauthorised intrusion, ensuring your device and sensitive data stay safe.

With Knox Suite,<sup>1</sup> it couldn't be simpler to manage your devices. Android Enterprise and Knox Mobile Enrolment both allow you to remotely enrol and deploy a whole fleet of devices. Knox Manage can even pre-load essential files or documents, tailoring devices for specific employees—making sure everyone's geared up for work. And Knox Asset Intelligence gives you in-depth usage analytics for your entire fleet. It's security and management, all wrapped up in one neat package.

1. After the one-year subscription, you can extend it by one or more years.

- 4,050mAh<sup>2</sup> Replaceable Battery<sup>3</sup>
- USB 2.0 Type-C
- POGO for charging<sup>4</sup>

## Sensor:

- Accelerometer
- Gyro sensor
- Geomagnetic sensor
- Light sensor
- Proximity sensor

## Durability:

- Corning® Gorilla® Glass Victus®+
- IP68<sup>5</sup>
- MIL-STD-810H
- Drop tested to 1m (1.2m with case)

## Audio:

- Speaker: Mono, 1.2W
- Microphone: 2 Mic
- Ear Jack: 3.5Ø

## SIM:

- 4FF, SIM1+ eSIM+uSD

## Others:

- XCover Key

## Enterprise Edition:

- 3-year warranty + 3-year enhanced support including next business day doorstep exchange<sup>6</sup>, 2 year Product Life Cycle, 7 years SMR and 7 generations OS updates<sup>7</sup>, 1 year Samsung Knox Suite<sup>8</sup>

1. microSD card sold separately. 2. Typical value tested under third party laboratory conditions. Typical value is the estimated average value considering the deviation in battery capacity among the battery samples tested under IEC 61960 standard. Actual battery life may vary depending on network environment, usage patterns and other factors. 3. In the case of extra replaceable batteries, only Samsung-certified products are compatible for use. 4. POGO charging dock sold separately. 5. Submersion in up to 1.5m of freshwater for up to 30min (not advised for beach or pool use). Rinse residue/dry after wet. 6. Doorstep Exchange with Samsung gold stock. Covers manufacturing defects only. T&C apply. 7. 7 years from first global launch and 7 generations of OS updates. 8. After the one-year subscription, you can extend it by one or more years.

# Galaxy Tab Active5

Our toughest tablet yet for a portable PC-like experience.

# Press to impress

Take on heavy-duty work with a supremely stylish device.

Get more done with just a single click—no need to take off those thick gloves. Press the Galaxy Tab Active5's handy physical Active Key and hey presto, launch any app you want in an instant—perfect for when your hands are full. Plus, administrators can even map the Active Key fleet-wide with Knox Mobile Enrollment for the ultimate in efficiency.

The Galaxy Tab Active5 features a brighter screen<sup>1</sup> with Vision Booster, making workstreams easier to navigate. Plus, with Microsoft Teams<sup>2</sup> push-to-talk voice calls, your Galaxy Tab Active5 transforms into a powerful walkie-talkie. Take it anywhere, even into bustling environments.

## Bright Display

**600**  
nits brightness

**↑ 25%**  
brighter compared  
to Tab Active3

## Smooth Display

**120Hz**  
refresh rate

**↑ Up to  
2X**  
smoother compared  
to Tab Active3

# More than tough enough

## A tablet that's been tested against the harshest of conditions.

Take on the toughest work settings without worrying about device damage. The Galaxy Tab Active5 is IP68<sup>1</sup> and MIL-STD-810H compliant, meaning it can withstand splashes, dust and drops.<sup>2</sup> Its display is shielded by resilient Corning® Gorilla® Glass 5. Even the included S Pen is IP68 compliant, so you'll have no worries scribbling in wet conditions.

Whether you're sketching in the rain or accessing data atop a telephone tower, the Galaxy Tab Active5 can handle the pressure like a pro. Tough, reliable and ready to face hectic days ahead.

1. IP68 is based on test conditions for submersion in up to 1.5 meters of freshwater for up to 30 minutes. Not advised for beach or pool use. Water or dust damage not covered by warranty. Rinse residue/dry after wet. Not advised for beach or pool use. 2. Device tested to withstand drops up to 1.5m with protective cover.

# Work smarter, not harder

## Not just a tablet—a portable productivity platform.

When one screen just won't do, why not double up? With Wireless DeX mode<sup>1</sup>, you can enjoy a PC-like experience on your Galaxy Tab Active5. Display content on a secondary screen while keeping tabs on other apps right on the tablet—it's the ultimate multitasking companion.

Included as standard with the Galaxy Tab Active5 is the water- and dust-resistant S Pen. Yes, even the accessories are rugged. It's not just any pen either—it gives you and your team ultimate control for editing, note-taking, annotating and sketching. With super low latency, writing with it is like putting pen to paper, but in the digital world.

The Knox Capture scanning app<sup>2</sup> also turns your device into an innovative barcode scanner, handling multiple barcodes at once. Say goodbye to the hassle of additional handheld scanners—it's all about efficiency and getting tasks done, quickly and efficiently.

1. Wireless DeX available only on Tab Active5. On device, wired and wireless DeX available only on Tab Active5 Pro. Wired and wireless DeX available on both XCover7 and XCover7 Pro. 2. Knox Capture requires separate app installation and license purchase for use. Availability may vary by market and model. Barcode scanning may require app remapping to programmable key to use full feature.

# Keeps pace with progress

## Work never stops—neither does your Galaxy Tab Active5.

Conquer the toughest workdays without missing a beat. The Galaxy Tab Active5 is a powerhouse inside and out. Fuelled by an Exynos 1380 processor and memory that is expandable up to 1TB with a microSD card,<sup>1</sup> this tablet is ready for any task you throw at it.

Snap, scan and record with ease using the 13MP rear camera and 5MP front-facing camera. And keep doing what you're doing for longer, thanks to the swappable 5,050mAh battery.<sup>2</sup> Charge up in a flash with USB-C or POGO pins<sup>3</sup>—no more waiting around.

Even if your device is plugged into a kiosk or vehicle, it can keep on running without a battery using No Battery Mode.<sup>4</sup> It's like the Galaxy Tab Active5 never wants the workday to end.

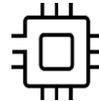

1. MicroSD card sold separately. 2. Typical value tested under third-party laboratory condition. Typical value is the estimated average value considering the deviation in battery capacity among the battery samples tested under IEC 61960 standard. Actual battery life may vary depending on network environment, usage patterns and other factors. 3. POGO charging dock sold separately. 4. Need to turn on "No Battery Mode" and use a dedicated USB Type C power source accessory (9V/2.3A ↑, PD2.0 ↑). Cradle and power source accessory sold separately. No Battery Mode limits device's CPU/GPU performance and reduces maximum volume, and display brightness, when enabled.

1. Submersion in up to 1.5m of freshwater for up to 30min (no advised for beach or pool use). Rinse residue/dry after wet. Not advised for beach or pool use. 2. Drop test results meet MIL STD 810H standard and vary depending on particular Rugged device. Test scope: Altitude, Humidity, Immersion, Salt Fog, Dust, Vibration, Drop, and more. Tab Active5 Pro can take 1.5M with case on. 3. microSD card sold separately. 4. Typical value tested under third-party laboratory conditions. Typical value is the estimated average value considering the deviation in battery capacity among the battery samples tested under IEC 61960 standard. Actual battery life may vary depending on network environment, usage patterns and other factors. 5. In the case of extra replaceable batteries, only Samsung-certified products are compatible for use. 6. POGO charging dock sold separately. 7. Wireless DeX available only on Tab Active5. On device, wired and wireless DeX available only on Tab Active5 Pro. Wired and wireless DeX available on both XCover7 and XCover7 Pro. 8. Doorstep Exchange with Samsung gold stock. Covers manufacturing defects only. T&C apply. 9. Up to 8 years, with monthly or quarterly updates, depending on device. 10. After the one-year subscription, you can extend it by one or more years. 11. Need to turn on "No Battery Mode" and use a dedicated USB Type C power source accessory (9V/2.3A ↑, PD2.0↑). Cradle and power source accessory sold separately. No Battery Mode limits device's CPU/GPU performance and reduces maximum volume, and display brightness, when enabled.

# Use Cases

---

# Made to work anywhere

How Samsung Rugged devices help retail workers from the stock room to the shop floor.

## 1. Arriving in store

Connect to the store's Wi-Fi network or private 5G, log into the company app and clock in.

## 2. Planning for the day

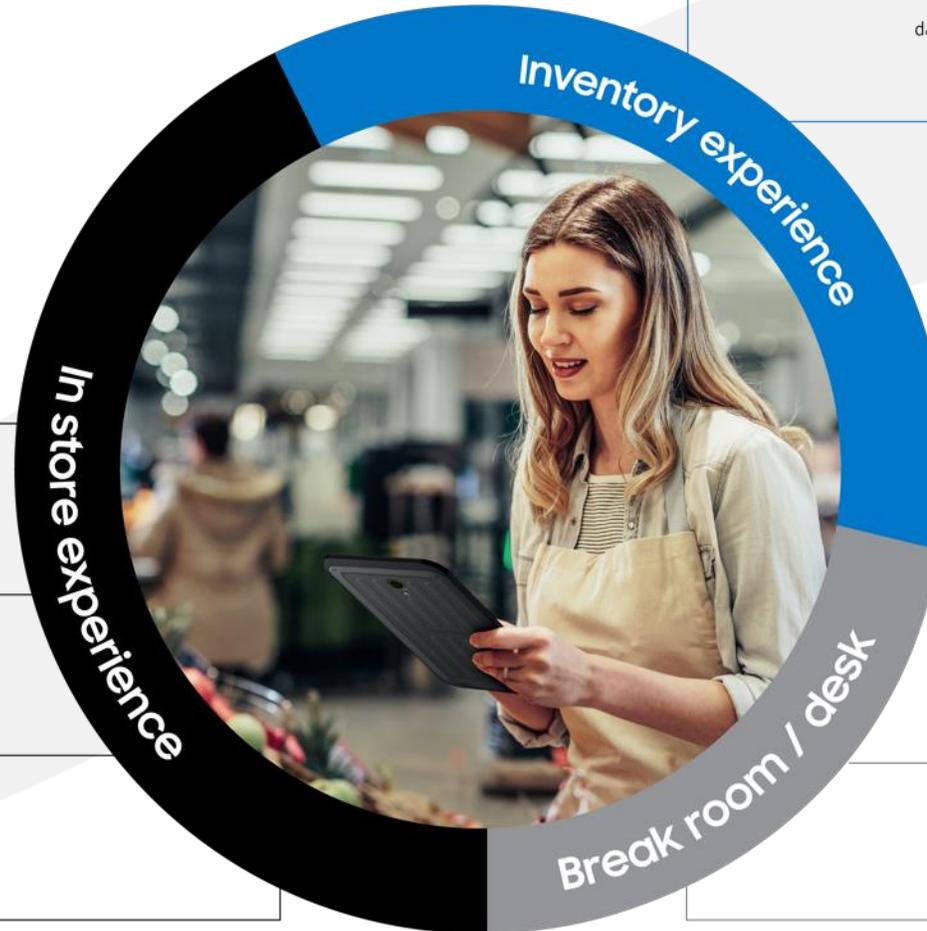

Use the company app to schedule shifts, request time off, manage tasks, access on-demand training and find other information.

## 3. Meet customer's needs

Employee meets customers with questions, then launches inventory management app to find merchandise and locate products.

## 4. Seamless checkout

Customer is ready to check out. Launch the mPOS app and use the improved camera as a scanner to capture product information and offer contactless payment directly from the device with Samsung Pay.

## 5. Smart data capture

Employee is assigned to inventory management tasks, then launches the inventory management app and uses the improved camera to speed up data capture and entry—all while keeping gloves on for protection.

## 6. Prep online orders

Employee is assigned to pick up groceries to fulfill online orders. Launch the ordering app, locate products and pack order ready for pick up and delivery.

## 7. Push-to-Talk product refill

The Push-to-Talk functionality, integrated with Microsoft Teams, enables collaboration even when employees are physically apart.

## 8. Generating reports

Managers can use the XCover7 instantly to seamlessly connect to a PC to generate reports by Link to Windows.

## 9. Easy to deploy and manage

At home or in the break room, associates can use the XCover7 as a personal device using the compartmentalised.

# Strong enough for the frontline

How Samsung Rugged devices help first responders stay safe and effective.

## 1. Connecting to 5G

Connect to 5G network and start the workday anywhere, in the field, vehicle or station.

## 2. Accessing critical information

Instantly access criminal justice database (CJIS compliance is enabled by Knox) to receive mission-critical information.

## 3. Communicating through Push-to-Talk

Push-to-Talk function can supplement radio—receive mission-critical voice, as well as provide access to rich multimedia data, all in one device.

At the Station

In the field

## 7. Scanning and managing evidence

Evidence and property management clerks assign barcodes to the evidence, launches the scanning app and scans to track and manage evidence.

## 6. Working through reports seamlessly

Connect XCover7 to a Windows PC through Link to Windows to boost work productivity—you can open up to five apps at once on the PC screen and go back and forth between the device and PC apps without opening the device.

## 5. Pair device with vehicle

Pair Tab Active5 with the vehicle-mounted display and keyboard to process the data without switching back and forth.

## 4. Tough and reliable device throughout the day

Push-to-Talk function can supplement radio—receive mission-critical voice, as well as provide access to rich multimedia data, all in one device.

# Built for the toughest jobs

How Samsung Rugged devices help manufacturing workers stay productive anywhere.

**1. Starting the day seamlessly**  
Employee picks up Tab Active5 in the morning from their POGO charging station and uses RFID for access control.

**2. Optimised for PPE and safety**  
Rugged devices connect seamlessly with worker PPE and allows for social distancing monitoring and tracking to keep employees safe and protected on the front line.

**3. Check task list**  
Employee connects to fast Wi-Fi and opens up mPOS app to access task lists.

**4. Keeping track of product on the line**  
Along the line, workers are using NFC for tag reading and keeping track of product progression on the chain.

**5. AR assistance for complex tasks**  
In repair center, employees use repair assist or easily contact remote expert using AR assist to visualise more complex tasks.

**6. Using field ready device**  
Production line manager monitors tasks through the line while keeping gloves on thanks to highly responsive Tab Active5.

**7. Requesting information through Push-to-talk**  
From the shipping station, worker contacts colleagues through Push-to-Talk function to enquire about product.

**8. Dock**  
Access local and remotely stored product shipment information and documentation.

**9. Dropping device and getting back to work**  
Worker drops device from top shelf in storage area but the rugged built-in case protects the device.

**10. Scheduling and managing tasks**  
Connecting Tab Active5 to a keyboard wirelessly through Samsung DeX to edit more comfortably the schedules and tasks to come.

**11. Easy to deploy and manage**  
Devices are easily customised with relevant manufacturing apps like Knox Capture, deployed, and then managed centrally.
