Ubiquiti Enterprise Solutions

Secure, Scalable, and Cost-Effective Networking

Ubiquiti is a global leader in networking technology, delivering enterprise-grade performance with a focus on simplicity, scalability, and cost efficiency.

The latest UniFi Enterprise solutions are designed for modern businesses, offering advanced security, high-speed performance, and centralised management for a seamless networking experience.

UniFi Enterprise solutions make networking easy to deploy, scale, and manage. Whether upgrading an existing network or starting from scratch, UniFi provides reliable connectivity, maximum uptime, and full control—without the complexity or high costs of traditional vendors.

Enterprise-Grade Security & Network Protection

UniFi Enterprise Fortress Gateway

- 12 Gbps routing throughput with Intrusion Prevention System (IPS) security.
- Protection against 95,000+ known cyber threats, updated daily (Powered by Proofpoint).
- VRRP High Availability and dual hot-swap power supplies for maximum uptime and reliability.

UniFi Cloud Gateway Ultra

- Centralised cloud management with advanced threat protection.
- Ideal for multi-site businesses needing remote network oversight.
- 2.5Gb WAN Support.

High-Performance Wireless & Switching

E7, E7-Campus, and E7 Audience Range

- Ultra-fast speeds and seamless coverage for dense environments.
- Indoor and outdoor models for versatile deployment.
- High availability LAN port configuration.
- 10G Ethernet connectivity.
- Real-time spectrum analysis.

UniFi Switch Enterprise Campus Series

- 100/40G QSFP28 capability.
- 10G Ethernet multi-gig edge switches.
- POE+++ (90W) support.
- MC-LAG support.
- Shadow mode failover using VRRP.

Centralised Network Management & Control

UniFi Network Application

- Cloud-based platform for monitoring and managing the entire network.
- Intuitive interface with real-time analytics and remote troubleshooting.

UniFi Protect & UniFi Talk

- Integrated security camera and VoIP solutions for enhanced business operations.
- Scalable and easy to manage within the UniFi ecosystem.

UniFi Access

- Secure and scalable access control solution.
- Fully integrated into the UniFi ecosystem for centralised management.
